

REMARKS:

By the above amendment the Applicant has amended the claims to

- reduce the number of claims,
- eliminate multiple dependent claims,
- state the claims of this PCT Application in more according way to the US practice,
- define the invention in clearer way.

Following is a description of the amendments:

Claim 3: The following clause has been added “presenting the learner with characterizing information about one or more of said empty reproductions”. This amendment simply states something that was implicit in the claim. If the user has to associate empty reproductions with real language samples, he/she must be also presented information about said samples.

Claim 21: The amendment in this claim is equivalent to the amendments mentioned for claim 50, so it is considered that the explanation given for claim 50 is applicable here

Claim 26: This claim is equivalent to linking claim 39 and claim 3.

Claim 27: This claim is equivalent to linking claim 42 and claim 3.
